

TENNESSEE CLEAN FUELS COALITION

2023 Membership Form

Jonathan Overly, Executive Director, ET | jonathan@etcleanfuels.org | 865-974-3625
Daniel Siksay, Chief of Staff, ET | daniel@etcleanfuels.org | 865-974-9665
Alexa Voytek, Coordinator, MWT | alexa.voytek@tn.gov | 615-532-0238
Mark Finlay, Energy Analyst, MWT | mark.finlay@tn.gov | 615-253-3676

What to expect when you join:

Dedicated Team: Jonathan and team will work for your fleet or company to provide the connections and assistance you desire, and have the knowledge and contacts you need to get the job done right. Alexa and Mark provide assistance and have deep knowledge in various aspects of advanced vehicle technologies and programs.

Financial Assistance: We provide assistance in developing project proposals and expertise in writing grant applications. Over the last 20 years, we have developed deep relationships with many of today's grant agencies and know the grant eccentricities well so your proposal is a winner. In some cases, we are the grant manager.

Education: We can provide you up-to-date information on the latest developments in alternative fuel vehicles, or AFVs, and advanced vehicle technologies. We can also assist in determining what vehicles are best suited or most appropriate for a given fleet application.

Public Image & Collective Effort: Membership in the Coalition provides a forum for teamwork and collaboration towards the common goals of reducing air pollution from petroleum use and helping fleets save money. It also identifies your business or agency as environmentally friendly and active in addressing environmental concerns.

Practical Experience: Coalition membership gives you access to fleets and members who are currently employing alternative fuel vehicles and advanced vehicle technologies, providing you the opportunity to learn from their expertise and experiences.

Leveraging Resources: The development of partnerships among members allows for the leveraging of resources and the sharing of costs, such as developing shared fueling facilities or providing access to existing private facilities.

Market Access: The broad range of memberships within the Coalition provide options for all size businesses.

PRAISE FROM OUR MEMBERS

"Jonathan and Daniel have been a tremendous help in providing current, in-depth knowledge of available alternative fuels and technologies as well as practical ideas and guidance for operational implementation for the City of Chattanooga as we look to begin incorporating these into our fleet."

Erik Schmidt, Director of Sustainability, the City of Chattanooga

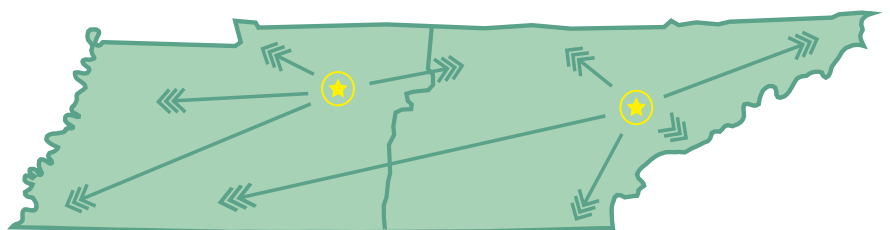

"With biodiesel, EVs, LPG and CNG, they've been there to help us better understand our options and guide us in the process. The clean fuel options in Tennessee have grown over the years, and much of that is due to the Clean Fuels team."

Bryon Fortner, Public Works Director, City of Sevierville

SERVICE AREA -- STATEWIDE ASSISTANCE

MWTCleanFuels is based in Nashville and serves 47 western counties in Tennessee while ETCleanFuels is based in Knoxville and primarily serves 48 counties on the eastern side of the state. However, we are collaborative team whose focus is to help any fleet in Tennessee no matter where you are! We can *and want* to help you learn about the growing options in alternative fuels and advanced vehicle technologies, and about the wide variety of sizes and types of fleets in Tennessee that are "Making the Switch!"
